

Uillinn: West Cork Arts Centre is committed to monitoring and reducing our environmental impact as an integral part of our programming, public engagement and operations strategies. We recognise that we have a responsibility to protect the environment through our practices and activities while maintaining high standards of artistic excellence. This policy aims to work collaboratively with staff, board members and artists to achieve these aims as set out below.

- Reducing our carbon footprint as part of a carbon management strategy
- Complying fully with all relevant legal requirements, codes of practice and regulations
- Assessing the environmental impacts of our operations and our programme, continuously seeking to reduce these and improving our resource efficiency through reduction of energy, water use and waste.
- Promoting environmental and energy awareness in our employees through participation and training
- Monitoring our progress to ensure ongoing improvements in our environmental performance.
- Actively promote reduce, reuse and recycling both internally and amongst our suppliers and customers
- Reducing use of single use packaging
- Minimising waste generation by applying reuse and recycle options where possible.
- Minimise waste generation and unnecessary resource usage during the stages of planning, design and operation of new and existing business activities.
- Set objectives and targets for continuous improvement. Measure and review our performance regularly and communicate the results.
- Choosing suppliers and contractors that adopt best environmental practices and make this the procurement policy of our company.
- Participate in “Bike to Work Scheme”
