

Activity 11

Landscape Rubbing

Materials

Paper

Colours

Brushes

Scissors

Gluestick

Pencil

Rubbing

Take paper and pencil outside.

Look for interesting surfaces.

Place paper on top and hatch over the paper until the shape of the underground is visible.

Collect as many different rubbings as you like. The more the better.

Time for your Imagination

Have a look at
your rubbings.

Which ones do
you like best?

What does each
rubbing remind you of?
Clouds, flowers, birds...There is no
limit to your imagination!

This one could be a flower meadow...

Add some Colour

Use your rubbings as an inspiration.
I started with one, that looked like
a cloudy sky...

Cut out and arrange

Glue to Background

You can try to blend your cutouts to the background, if you like.
